## ALOE VERA

The queen of medicinal plants

This treatment range has been specially designed to work on normal and combination skin. Aloe Vera balances irritated skin, reduces inflammation and provides deep hydration. With a calming effect, the result is silky smooth skin.

Vegas Cosmetics uses only selected, high-quality raw materials as ingredients in its products. Through an exclusive processing process, our Aloe Vera products contain high quantities of fresh extract from the pulp of natural, organically grown Aloe Vera. In this way, we preserve the valuable properties of this plant.

## As Valuable As Your Skin!

Vegas Cosmetics' Q10 line has been formulated to revitalize the skin, promoting a younger, healthier appearance. Coenzyme Q10, a powerful antioxidant, is directly involved in the production and renewal of cellular energy, providing the essential components to fight the signs of ageing.

Especially suitable for dry skin in need of anti-ageing care, this line deeply moisturises while strengthening the skin's natural barrier. Coenzyme Q10 helps neutralize free radicals and stimulates cell regeneration, resulting in firmer, smoother and more radiant skin.

Try Vegas Cosmetics' Q10 line and discover the power of healthy skin.

## SKIN CELL TRONIC

The modern anti-aging technology has a new star: Skin Cell Tronic. The point of this incredible technology: to reduce the traces of time, gently and effectively.

This equipment uses the advanced technology of ultrasound, with contemporary LED light, which leads to the gentle and effective reduction of wrinkles, pores, cellulite symptoms and small scars! The application results in a more elastic, smoother skin that appears more youthful and fresh. With this genius device you massage and tighten your skin. For people with a pronounced awareness of beauty and who are not in favour of radical intervention with unpleasant pain and “crude scalpel”, ultrasound therapy is a wonderful alternative.

This cosmetic device is very versatile when used in combination with Vegas products, especially on the face, neck and cleavage. To use this device, guide the sound waves in circular motions over your skin.

### SKIN CELL TRONIC

- Ideal for home use, or on the go
- Easy to use
- Visible results immediately
- 3M ultrasound
- Ionisation functions (+) (-)
- Cold LED light (red, blue and green)
- Rechargeable lithium batteries conveniently allow for flexibility in location and time of usage
- Safety goggles and cable included

Ref. 460 | 316,50€ (DKK 2513,00)

## Skin Cell Tronic- Functions

**Ionisation:** Ensures that, with galvanic direct current, the molecules of the hyaluronic acid are converted into ions, and transported into the deep layers of skin.

**Ultra sound:** Its 3 million gentle pulses per second provide a massaging effect, which percolates into deeper skin layers. The inclusion of hyaluronic gel in the treatment improves the skin's production of collagen and elastin.

**Photo therapy:** Cold LED light in low frequency range provides for differing effects with its three colours.

Blue: Reduces inflammation and calms the skin.

Red: Promotes the production of collagen and elastin in the skin.

Green: Relaxes the face muscles and oxygen enrichment of the skin.

## Skin Cell Tronic- Effect

This innovative concept is incredibly effective and results are visible from the very first application. Don't miss the chance to give your skin a luxurious treatment.

The effectiveness has been proved by a scientific study at TU Darmstadt!

#### HYALURONAN GEL WOMEN

- Nourishing
- Hydrating

- Diminishes appearance of wrinkles

30 ml/1.0 oz | Ref. 410 | 51,00€ (DKK 370,00)

#### SKIN CELL TRONIC & HYALURON: Aesthetics With High Standards

Care for the beauty of your skin at the highest level! Our own face reflects our emotional state. Every day through various facial expressions such as smiling, or frowning, about 15.000 facial expressions will be made and thus wrinkling occurs, especially in the highly stressed regions such as the forehead, eyes, mouth and nose. High quality sera bind a lot of moisture and stimulate the formation of new collagen and elastin, whereby the regeneration capability of the skin is supported.

Due to this special property to bind and store large amounts of moisture, the volume of the connective tissue and the skin is strengthened. This provides more firmness, wrinkles and skin irregularities are smoother and the depth of wrinkles is reduced. Small sunken scars can be reduced in terms of their skin depth. Even in the case of stretch marks.

Vegas Cosmetics uses exclusively hyaluronic acid, which is produced by fermentation of plant extracts (in many cases Hyaluron extracted from cockscombs or cow's eyes). This natural production process guarantees that the product contains no animal ingredients, but that Hyaluron molecules can be easily absorbed by the body. This has been demonstrated by clinical studies!

If you use Hyaluron, your pigmentation spots can fade and larger pores become smaller. Just where it shows most: on the face, neck, cleavage and hands!

For all beauty conscious people, it is particularly worthwhile to use Hyaluron. The application is recommended as follows: apply in the morning and at night after cleansing, massage gently and after absorption apply a moisturising cream. Ideally our Anti-Aging Hyaluronic or Q10 series.

# sensitive

## CONCEPT

Gentle care for delicate skin

Specially developed for greasy, sensitive skin types, which tend to resent impurities, but it can also be ideal for combination skin types. The skin is cleansed with panthenol and glycerine without drying out. A complex of active ingredients of salicylic acid and zinc has an antimicrobial and inflammation reducing effect that stimulates the regulation of sebum on the skin.
